

Report of Operative G T Purdy

Sept. 4, 1926.

SUBJECT: MRS. GIBSON

185.1404

GTP/Gibson

Operative went to Bayonne, N.J. and made inquiries in the vicinity of the house at 644 Broadway, the house occupied by Mrs. Williams (subject's sister). All of those whom operative interviewed stated that "they are a wild bunch in that house."

Operative observed several men go in through the side door in the yard and then up the stairs to the upper floor, which Mrs. Williams occupies. Operative did not observe anything that looked like a wedding was taking place this evening. Saw one girl come out. There were only two rooms which had lights in them and the house looked very dim and there are screens covering all the windows. Mrs. Williams rents the entire upper floor.

Operative covered this house until 10 P.M. but did not see anyone leave the house who looked like Mrs. Williams. I have been informed that she is a very short, stout woman with blonde hair, of the bleached type.

Respectfully submitted:

G.T.P.
